## Professional experiences

### Ayokai

Full-stack developer

Brazzaville, Congo

June 2024 - Present

- I develop fluid interfaces adapted to all screens, ensuring visual consistency and an optimized user experience.
- Design and development of robust and secure APIs, protected by JWT middleware and structured according to a modular architecture to facilitate system maintenance and evolution.
- Close collaboration with QA teams to deliver stable features, applying cross-testing and continuous validation practices.

Vue TypeScript Express MongoDB Tailwind Playwright

### PossaCode Community

Developer and Board Member

Brazzaville, Congo

November 2023 - Present

- Active participation within a supportive tech community, committed to the free sharing of knowledge and mutual support among developers.
- Participation in challenges and various programs launched by the community — an association, a website; with active contribution during group workshops

HTML CSS Tailwind Git JavaScript

### Freelance

Graphic Designer

Brazzaville, Congo

June 2022 - October 2023

- Creation of custom visuals for various clients and brands: logos, posters, web banners and content for social networks.

Figma Adobe XD PhotoShop Canva

## Latest projects completed

### Pay4You

Vue TypeScript Express MongoDB Tailwind Playwright

- Pay4You is a SaaS platform for managing and monetizing donations, designed as an alternative to Buy Me a Coffee, adapted for Africa.

### Raft Bank

[raft-template-pro.vercel.app](https://raft-template-pro.vercel.app)

Vue TypeScript Tailwind Locomotive JS

- Raft Bank is a modernly designed banking/fintech website landing page, created to showcase a digital financial offering.

### Color App

[kolor-app-pro.vercel.app](https://kolor-app-pro.vercel.app)

Vue TypeScript Tailwind Chroma JS

- Kolor App is a color palette generator, designed to help designers and developers quickly create harmonious combinations.
